

COURSE PROGRAMME

Scuola Corghi was founded in the late 1970s with the aim of **training professional operators and improving the skills** of users of Corghi workshop equipment and services.

Depending on the **type**, the courses can be:

-  **IN-PERSON**, held in the training room;
-  **WEBINAR** live streaming, to be attended through Microsoft Teams platform.
-  **VIDEO-COURSE**, 24-hour availability online

In-person courses are generally aimed at **groups of a maximum of 8 people**: the limited number of participants allows for more effective and customised teaching, offering many opportunities to exchange views and for practice session on equipment.

Each participant will be provided with a free user account on the **Training Portal**, where he/she will be able to register for the courses he/she is interested in and **consult all the teaching materials related to the courses he/she has attended**.

Live streaming courses will be available in full for participants to review and download.

Upon completion of the course, each participant will receive a  **Certificate of participation** certifying the training contents.

Scuola Corghi Training Portal, scuola.corghi.com

At **Scuola Corghi** large **training areas** are available, where **theory and practice** are both possible.

Classroom for theory

Scuola Corghi, Via per Carpi n. 9, Correggio

Scuola Corghi can now **be virtually toured** thanks to **Matterport technology** that offers a realistic and immersive user experience, complemented by the possibility for the virtual visitor to view specific videos and download the commercial documentation for each product.

Enrico Meschieri

boasts **many years of experience in teaching safe and optimal use of technical** equipment and is appreciated for the quality and constant update of his training. Thanks to his experience, he is able to integrate traditional practices with modern technologies, being a reference for the use of tyre changers, wheel balancers, wheel alignment systems and the latest ADAS calibration technologies.

Salvatore Sigillo

is a trainer **specialising in the use of equipment for tyre specialists**, with extensive **experience in machine** service and repair. This practical experience allows him to offer targeted and comprehensive training, enabling trainees to also gain a technical understanding of tool operation and maintenance.

THE RANGE OF OUR EQUIPMENT

Category

Type

Category

Content for product line

Type

Course content:

- ▶ Wheel alignment theory
- ▶ Wheel alignment procedures
- ▶ Practical exercises
- ▶ Electrical steering reset
- ▶ Hints concerning ADAS wheel alignment-related systems

Language

Duration

Notes:

Free Data Bank Card including 3 credits
for online database update

CARD VALUE 25.00 EUR

Necessary preconditions:

A basic knowledge of geometry check is
advisable.

At the end of the course the participant will be able to:

- ▶ Understand the theoretical principles on the characteristic wheel alignment angles and recognise their effect on the tyre and when driving the vehicle
- ▶ Accurately perform all operations required for wheel alignment, ensuring compliance with technical standards
- ▶ Identify and apply the optimal procedures for proper and effective adjustment of the angles
- ▶ Perform the electrical steering reset procedures

Category

Content for product line

Type

Course content:

- ▶ Wheel centring
- ▶ Wheel balancing programs and imbalance theory
- ▶ Weight saving program (WM)
- ▶ Wheel diagnosis and Match-Mounting
- ▶ I-POS program
- ▶ Eccentricity and wobble
- ▶ Practice on diagnostic wheel balancers
- ▶ Ordinary maintenance and calibration procedures

Language

Duration

Notes:

Necessary preconditions:

Please specify type of equipment used:
diagnostic or traditional wheel balancer.

At the end of the course the participant will be able to:

- ▶ Recognise the various imbalances and their effects on the wheel and the vehicle
- ▶ Professionally clamp the various types of wheels
- ▶ Exploit the various programs for professional balancing
- ▶ Use diagnostic programs and perform Match-Mounting on the wheel

Category

Content for product line

Type

Course content:

- ▶ Complete diagnosis procedure on roller simulating wheel on road
- ▶ Plysteer procedure for tyre conicity and drift measurement
- ▶ Rim and tread depth diagnosis procedure
- ▶ Match-Mounting procedure and use of the diagnosis roller
- ▶ Theory and explanation of wheel deformation terminology (eccentricity, Plysteer, radial force, lateral force, drift, wobble)
- ▶ Wheel demounting and mounting procedure

Language

Duration

Notes:

FREE for Technology Partner customers

www.corghitechnologypartner.eu

Necessary preconditions:

At the end of the course the participant will be able to:

- ▶ Fully exploit the diagnostic tyre changer potential
- ▶ Perform a complete diagnosis and analyse the wheel behaviour on the road
- ▶ Apply the correct procedure for conicity and drift measurement
- ▶ Use diagnostic programs and perform Match-Mounting on the wheel
- ▶ Identify wheel deformations
- ▶ Perform wheel demounting and mounting procedures correctly

Course content:

- ▶ Theory and presentation of all ADAS systems and their future use
- ▶ Calibration procedures with PROADAS
- ▶ Wheel alignment pre-check procedures
- ▶ Practical exercises

Language

Duration

Notes:

Necessary preconditions:

A basic knowledge of ADAS systems is advisable.

At the end of the course the participant will be able to:

- ▶ Understand the operating principle, technical characteristics and operating modes of advanced driver assistance systems (ADAS)
- ▶ Identify and apply the optimal procedures for proper and effective adjustment of ADAS
- ▶ Exploit diagnostic tools in a proper and professional manner

Necessary preconditions:

Internet connection required

At the end of the course the participant will be able to:

- ▶ Riconoscere i diversi squilibri e i loro effetti sulla ruota e sul veicolo
- ▶ Bloccare in modo professionale le diverse tipologie di ruote
- ▶ Sfruttare i diversi programmi per una equilibratura professionale
- ▶ Utilizzare i programmi diagnostici ed effettuare il match-mounting sulla ruota

In order to participate in our courses, it is necessary to have an active profile in our **Training portal**.

If the applicant is not yet registered, he/she can activate it in two ways:

- ▶ independently at this [link](#).
- ▶ via e-mail at scuolacorghi@corghi.com by sending us the following information:
 1. **Company name and VAT no.** of the participant/company
 2. **Generic e-mail address of the participant/company**
 3. **First and last name** of the participant
 4. Participant **e-mail address** (can be the same as in point 2)
 5. Participant **mobile phone** (optional but recommended)

Upon registering, the participant will receive by e-mail the **credentials to access his/her personal area** within the Training Portal, where he/she will find all the information about the courses, the teaching materials and the certificate at the end of the course.

On the other hand, if the participant already has an active profile, he/she can enrol to the courses independently.

GENERAL CONDITIONS VALID FOR ALL COURSES

- ▶ Unless otherwise specified, the number of participants for each course is a minimum of 4 and a maximum of 8.
- ▶ Once the maximum number of participants has been reached, enrolment will be closed.
- ▶ If the minimum number of participants for each course is not reached, the course may not take place. In that case, interested parties will be duly informed in order to find the most suitable solution.
- ▶ If a company enrolls more than one person, the first will pay 100 per cent of the course fee, while from the second on a 50 per cent discount on the course fee will be granted.

Practical information

- ▶ In-presence courses  will be held at Scuola Corghi.
- ▶ The price of each course includes teaching materials and lunch in case the course lasts a full day.
- ▶ A certificate of attendance will be issued at the end of the course with positive result.
- ▶ Travel, transfers and in case accommodation are at the participant's expenses.
The names of partner hotels can be suggested on request.
- ▶ Enrolments must be sent via email or via the **Training Portal of Scuola Corghi** and will be considered confirmed after approval by Scuola Corghi.
- ▶ Once confirmation has been received, the participant is asked to proceed with payment according to the terms agreed.
- ▶ Any cancellation of enrolment must be notified by e-mail at least 7 days before the course start date. Failure to meet this deadline will result in the entire enrolment fee being charged.

scuola.corghi.com

GENERAL CONDITIONS VALID FOR TECHNOLOGY PARTNER CUSTOMERS

TECHNOLOGY PARTNER customers are entitled to attend two courses per year among those identified with the club logo. Attendance to these training courses will be **COMPLETELY FREE** and lunch will be paid for by us.

TWO FREE COURSES

Practical information

- ▶ In-presence courses  will be held at Scuola Corgi.
- ▶ The price of each course includes teaching materials and lunch in case the course lasts a full day.
- ▶ A certificate of attendance will be issued at the end of the course with positive result.
- ▶ Travel, transfers and in case accommodation are at the participant's expenses. The names of partner hotels can be suggested on request.
- ▶ Enrolments must be sent via email or via the **Training Portal of Scuola Corgi** e and will be considered confirmed after approval by Scuola Corgi.
