

UNIFORMITY

ARTIGLIO

THE WORLD'S FIRST DIAGNOSTIC TYRE CHANGER

- ✓ "Leva la Leva" technology for wheels up to 32"
- ✓ Complete diagnosis of the individual wheel
- ✓ Presser roller with variable load; a real road simulator
- ✓ Contact-free laser triangulator for measuring the geometric deformation of the rim and tyre
- ✓ The best tyre-rim coupling (MATCH-MOUNTING)
- ✓ Controlled Penetration (Patented)

Michelin Recherche et Technique SA

is an advanced Research Centre of the Michelin group.
This Centre has been using **Artiglio UNIFORMITY** since December 2016
for the diagnostics of the complete wheel, Run Out analysis,
and for analysing tyre elasticity and force variations.
